

Product Roadmap Q3-Q4 2024

1. Vision for H2 2024

Our focus for the second half of 2024 is expanding our enterprise offerings and improving user retention through enhanced analytics and integrations.

2. Q3 Milestones

July: Launch the new reporting dashboard with customizable widgets.

August: Beta release of the Salesforce integration.

September: Roll out SSO support for all enterprise tier customers.

3. Q4 Milestones

October: General availability of the Salesforce integration.

November: Introduce AI-driven insights for user activity data.

December: Performance overhaul of the core rendering engine to reduce load times by 30%.
