

Release Notes - Version 2.0

1. What's New in v2.0

We are excited to announce the release of platform v2.0! This major release includes a complete overhaul of the user interface and significant performance improvements.

New Feature: Advanced Analytics Dashboard. Users can now build custom charts and export them directly to PDF.

2. Improvements

Optimized the database queries for the reports page, reducing load times by an average of 45%.

Updated the API rate limits to accommodate higher tier customers.

Enhanced accessibility across the application, achieving WCAG 2.1 AA compliance.

3. Bug Fixes

Resolved an issue where password reset emails were delayed in the queue.

Fixed a UI glitch that caused dropdown menus to be cut off on smaller screens.

Patched a minor security vulnerability in the file upload component.
